2ND PFM ANNUAL CONFERENCE

19 – 22 MARCH 2024

PUBLIC FINANCE MANAGEMENT FOR ENHANCED SERVICE DELIVERY

The world over, governments exist to provide public goods and services to the citizens. These include but are not limited to education, transport services, healthcare and security. Enhanced service delivery requires that public goods/services meet certain standards. The United Nations (UN) Sustainable Development Goals provide a blueprint for measuring service delivery among the UN member states. How does Uganda fare?

The Institute of Certified Public Accountants of Uganda applauds the Government of Uganda for its commitment towards

improving public service delivery, notably through the introduction of Information Communications Technology (ICT) systems. Additionally, tighter controls on revenue collection have proven effective in curbing the revenue shortfalls. Can these interventions be enhanced for more impact? At the 2nd PFM Annual Conference discussions will revolve around effective accountability approaches for enhancing the performance of the aforementioned measures. Public sector experts from across the country will converge to jointly develop practical solutions for Uganda.

THE TOPICS:

1. Integrated Financial Management Information Systems (IFMIS): Flagship for Accountability & Transparency
2. Stakeholder Involvement and Public Accountability in Municipal Local Governments
3. Forensic Audits: Lessons and Experiences
4. Public Finance Management Audits: Feedback from the Office of Auditor General
5. Asset Utilisation: A Case of Uganda Prisons Service
6. Balancing Work and Personal Business
7. Climate Change: Opportunities and Risks

HIGHLIGHTS OF RESOLUTIONS FROM THE 1ST PFM ANNUAL CONFERENCE

The first Annual PFM Conference was held from 18 – 20 April 2023 at the Imperial Resort Beach Hotel, Entebbe, and online. Here are highlights of the resolutions:

1. Parish Development Model - Technical people should be at the forefront of PDM execution and not the politicians, as the PDM is a technical Programme.
2. Relationship between the Local Governments and Central Government in resource management - Deepen decentralisation as a viable and effective model for democracy and economic transformation.
3. Effectiveness of External Audits - Implement the Auditor General’s report to the letter.
4. ICT - Consider infrastructure alternatives like satellite, as cabling infrastructure is prone to vandalism.
5. Public Procurement & Disposal - Develop a legal instrument for the procurement profession.
